

## 'Shining Star' Gift Boxes

By Susan Pickering Rothamel

### Materials

- [Satin Mache® - Stars, Hexagon, Round or other boxes](#)
- [Perfect Paper Adhesive® - Gloss](#) (Matte is suitable for undercoats.)
- [Paint brush](#) or [Appligate - sponge](#)
- [Duo Adhesive®](#)
- [Gildenglitz®](#)
- [Texture Sponge®](#)
- [Styl'ine Doublestick - Stars, circles or other shapes](#)
- Embellishments and Ribbon of Choice

### Directions

1. Select your Satin Mache box and paint the entire box with a very light, thin coat of [Perfect Paper Adhesive® - Matte](#) which acts as a sizing.
2. Coat boxes with a very thin coat of [Duo Adhesive®](#). Let dry. [Duo Adhesive®](#) will become clear and tacky when dry.
3. Next apply [Gildenglitz®](#) - Gold, silver or variegated.
4. Gently burnish off any excess fines, using a [Texture Sponge®](#). Re-save them, putting them back into the bag for future use. If desired, scatter onto the sides of the box, some [Styl'ine Doublestick - Stars, circles or other shapes](#) and gild them too!

### TIP

- Look for pretty holiday ornaments, candies, hair ribbons & barrettes, or various other small gifts and fill the boxes - for beautiful paperless wrapped boxes.
- The Star Boxes have a drop out center section. Consider covering it with a complimentary recycled greeting card, gift wrap or scrapbook paper
